

Our History

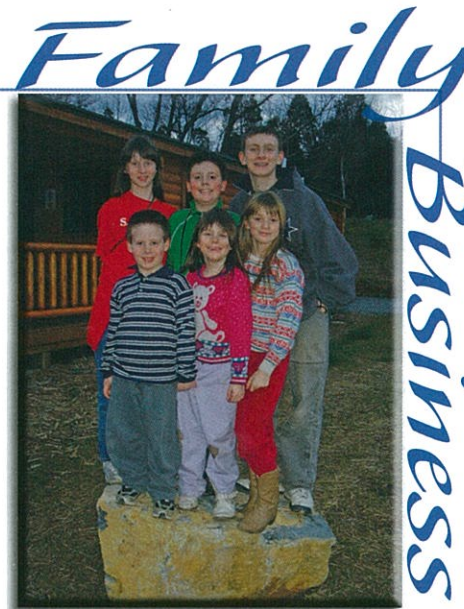

R & R Woodcrafts was begun by two brothers when they were 17 and 15 years old. Rich and Rob MacKeen. Rich was appointed to USAFA in 1982 and graduated in 1986. In 1985, Rich designed a new saber case with uniquely engineered swivel mounts, padded velvet and wood mounts for the class crest plates. This design has remained until today. Rich ran the business until after he graduated from UPT at Vance AFB. He realized he could not continue to devote so much time to the business, so he sold his share to Rob, who raised 4 children while solely building these cases, four of which are sitting in US Presidents' homes. Rich retired after 20 years of service, his last duty as the Assistant Air Attaché to the US Embassy in Bangkok. Rob wanted to try something new, after 20 years of his own dedicated service to his handcrafted works of art...so Rich and family are back in the business.

since 1985

Saber Cases

Saber cases are produced in genuine Cherry, Red Oak, and Walnut. All frames are stained with a dark walnut oil-based stain to provide lasting color protection for the wood. In addition, the wood is sprayed with multiple coats of lacquer and hand-rubbed for a glass-like smooth finish. The dark blue or black velvet (JB Martin brand) is hand-stretched over batting to give a cushioned appearance to the saber. Deluxe cases are covered in glass.

New Products

You know R & R Woodcrafts for our high quality saber cases. Now we are expanding and adding some exciting new products to our line.

- LASER Engraved Plaques for any occasion. We can burn any black and white digital image or word-processed file into plaques up to 12 inches by 18 inches. Plaques will only be made in cherry or walnut.

- Christmas Ornaments, Golf balls, Baseballs or Softballs. Personalized with Names and Full Color Pictures/Photos. These will make the perfect gift during the holiday season for that hard-to-buy-for person.

Custom Work

We pride ourselves in our high quality and in taking the time to meet your custom engraving needs. We will continue to deliver the saber cases to USAFA for Christmas and Graduation and to West Point, NY for Graduation. The traditional metal engravings will be available along with a new laser class crest directly burned onto the wood (class and Academy crests are currently only available for USAFA).

Online Store

Coming Soon in 2008

randrwoodcrafts.com

You will be able to order at any time of the year, submit graphics and type, and have our products shipped directly to you.
